

Who We Are

STAYBRITE STAINLESS FABRICATORS have been delivering premium stainless-steel solutions since 1984, serving everything from high-end multimillion-dollar homes to full commercial kitchen fit-outs and everything in between. As a 100% New Zealand-owned national company, Staybrite brings decades of expertise in crafting custom stainless products tailored to diverse kitchen environments. Staybrite offer:

- Experienced Design & Fabrication Team
- Site Measure & Templating
- Installation
- New Zealand made products
- Superior quality and customer service

Staybrite Stainless Fabricators realise that you have a choice of supplier, so customer service is our top priority. In addition to outstanding service, you can expect;

- 24 Hour quote turnaround
- 15 Working day lead time (or to suit)
- Competitive pricing

Why Stainless Steel

Stainless steel benches are a top choice for modern kitchens due to their sleek appearance, durability, and hygienic properties. They maintain their aesthetic appeal over time without fading or discoloration, and their non-porous surface makes them easy to clean and resistant to bacteria. Additionally, stainless steel allows for creative design flexibility through various surface patterns and finishes, making it both a practical and stylish option.

Advantages of stainless-steel benches:

- Modern aesthetic
- Durability
- Low maintenance
- Hygienic

This document is designed to guide customers in selecting the most suitable options for their design requirements.

Staybrite are proud to be a member of the National Kitchen & Bathroom Association

Commercial & Residential
Applications*

BENCH SPECIFICATIONS & OPTIONS

Specifications & Options

Fabricated Benches

Typically, 1.2mm 304 stainless on a timber substrate. 1.5mm and 2mm stainless is specified for some commercial benches. 316 stainless is used for marine and healthcare applications

Substrate Thickness

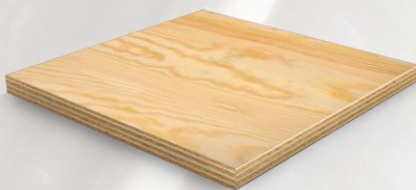

Substrate Options

MDF

Marine Ply

Marine ply is normally used in commercial kitchens and outdoor applications

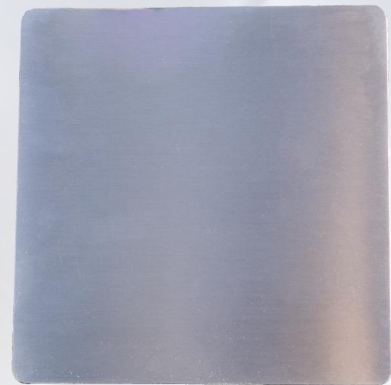

Plate Bench

Staybrite plate benches are available in 5mm, 8mm & 10mm 304 Stainless.

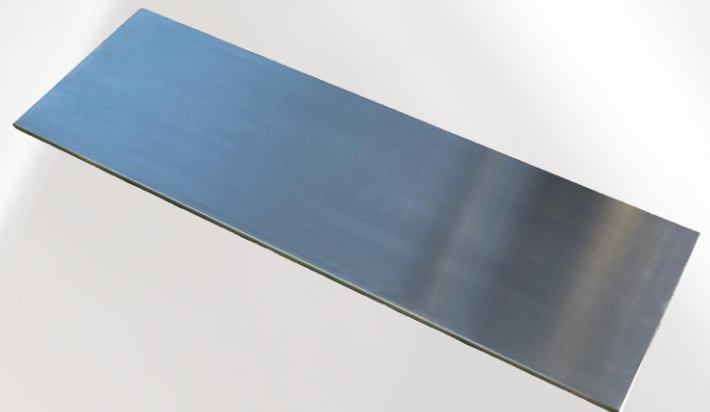

Plate benches are available in Brushed, Matt Orbital or Classic finish only. Upstands can be fully welded or supplied as an accessory to glue to the wall.

5mm Plate Brushed Satin Finish

Slimline Bench

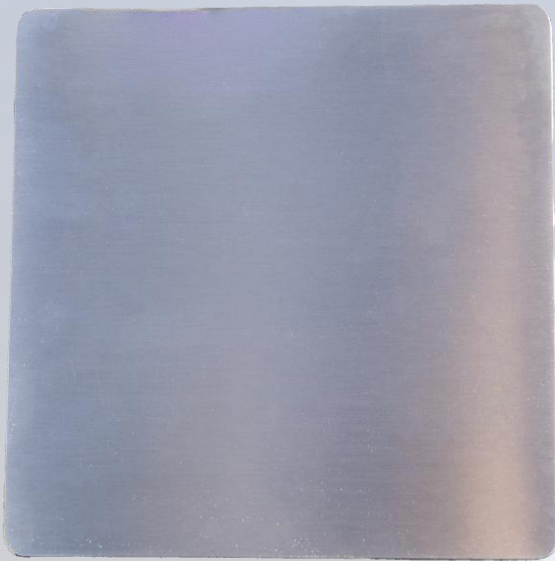

Slimline benches are typically fabricated from 1.2mm 304 stainless on a 9mm MDF substrate with 50 x 10 stainless flatbar on the visible edges. The stainless sheet is fully welded to the flatbar and polished which creates the clean look of a 10mm plate bench, typically at a lower price point.

They are available in Brushed, Matt Orbital or Classic finish.

Finishes

Brushed Satin

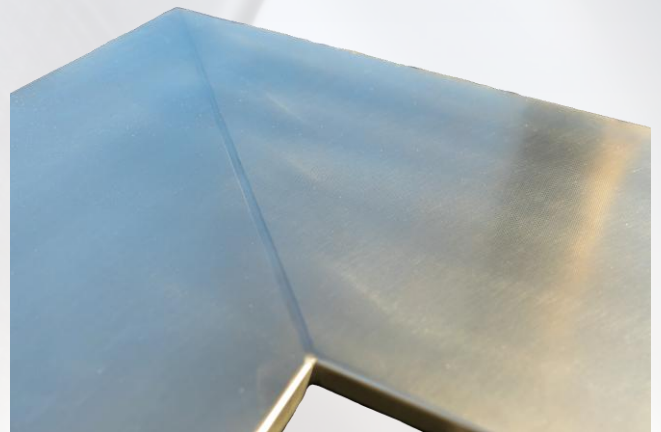

Linen

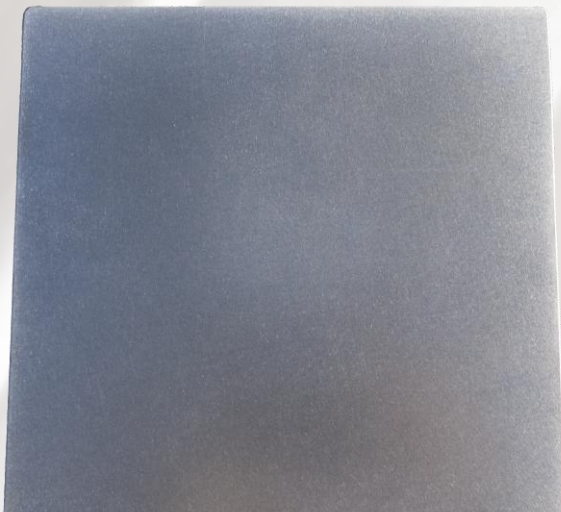

Classic

Seam in Linen Bench

Matt Orbital

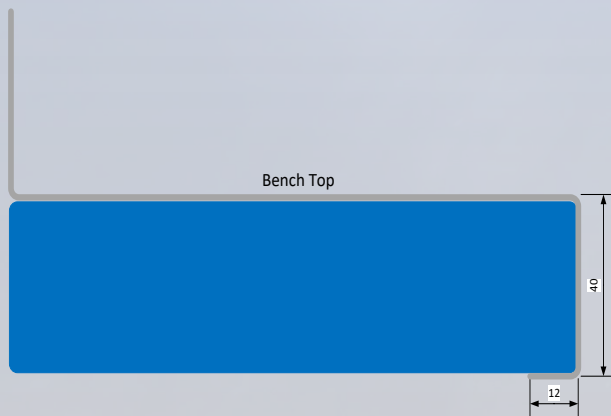

We can't reproduce the texture of linen where the bench is welded so we make a feature of the seam on a linen bench. Normally this appears as 4mm strip of polished steel along the line of the seam.

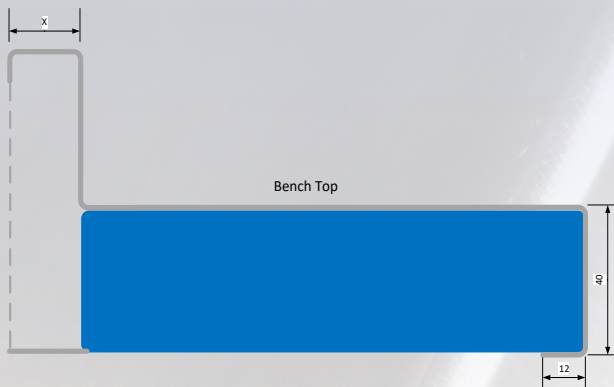

Plate Benches are not available in linen finish

Upright Options

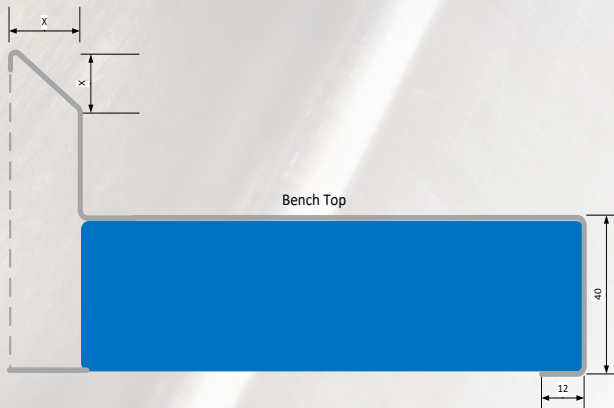

Flat

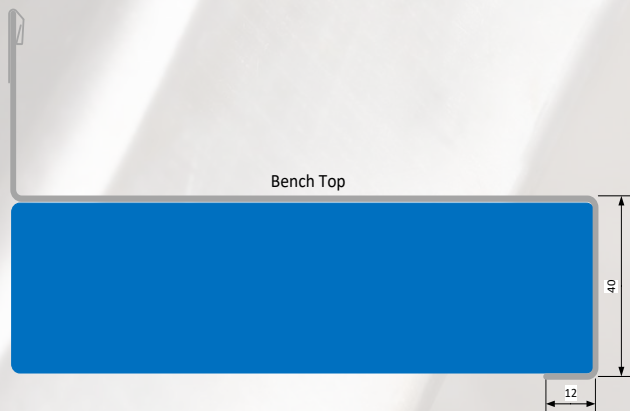

Boxed

Slope

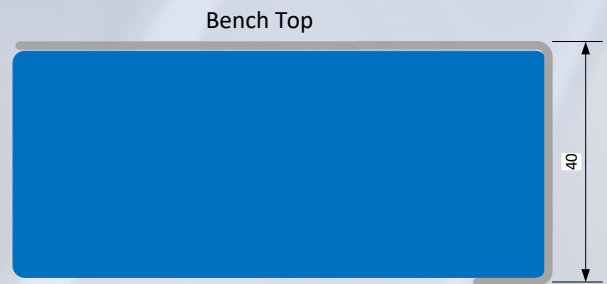

Diamond Bead

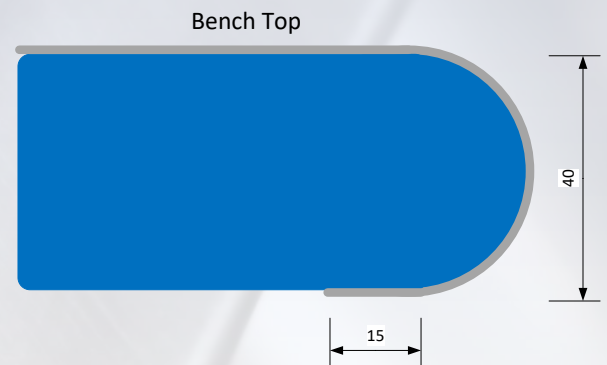

Fabricated Bench Edge Profiles

Square

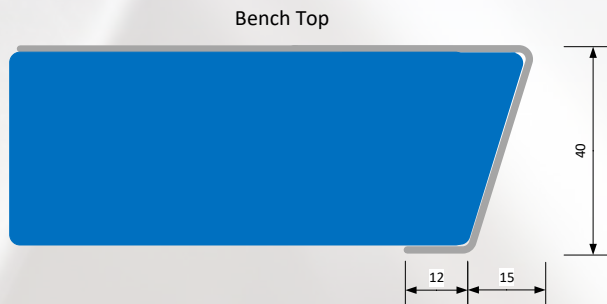

Available in 20mm to 100mm
